- 

## I WANT TO COACH BECAUSE:

- “I want to coach because I want young athletes to learn how capable they are of success on and off the court. I want my players to learn that there will always be someone that believes in them and that they can push themselves farther than what they could have ever imagined. I have a passion for basketball and for the athletes that have the drive to compete and learn from their mistakes. I want to be *that* coach that an athlete goes to for advice and constructive criticism, while knowing that their learning and success is at the forefront of my agenda.”
