-

OTHER SPORTS:

- 1992 – 1995: Hudson High School Football
-

I WANT TO COACH BECAUSE:

- “I find it to be one of the most challenging and rewarding things I’ve ever done. I love the process of getting to know each player, understand their personality, their current skill level, their motivation and how to transform each player and get the players to connect into a team. For me coaching it isn’t necessarily about the wins and losses, it is about the growth and development of the players as a team. I am excited to coach for HLC because I have the same mission vision and values as HLC.”
