-

I WANT TO COACH BECAUSE:

- As an educator and former athlete, coaching has always been a passion of mine. As I moved into educational administration, coaching has been something that I have missed and have not been able to be a part of. By coaching in HLC, I am able to continue this passion. I want to see all athletes, no matter of their ability, gain a knowledge and understanding of the game by improving their skills to be the best they can be.
