I WANT TO COACH BECAUSE:

- “I take pride in coaching at practices. I am a firm believer that “you play how you practice.” So, from the moment the kiddos step on the court, whether it be at practice or in a game, I push for them to stay focused. It’s so fun watching the fundamentals develop and the muscle memory of it all. Once they don’t have to “think” about the fundamentals, the court becomes a much bigger place for them to play.”
